

DR. GANG WU
B.D.S.,M.D.S.(Orth),PhD(HKU)
(China)

- Senior medical director and deputy chief dentist at Shanghai Smartee Denti-Technology Co. Ltd.
- Committee member of Orthodontics Committee of Shanghai Stomatological Association.
- Committee member of Oral Plastics Youth Branch of Chinese Association of Plastics and Aesthetics.
- Chief member of Smartee invisible orthodontic technology expert group, certified training instructor of Smartee™.
- Master degree in orthodontics at the Fourth Military Medical University & Doctor degree of prosthodontics at the Second Military Medical University.
- Devoted himself to developing new technologies for invisible orthodontics for nearly 20 years, Dr. Wu has hold a lot of frontier patents for invisible correction. As an expert in invisible correction of dental and maxillofacial deformities in adolescents and adults, he has solved numerous difficult cases by combining orthodontics with multiple disciplines with his extensive clinical experience. His scientific research involves biomechanical three-dimensional finite element research on invisible orthodontic tooth movement, the mechanics and biocompatibility analysis of invisible orthodontic materials and mandibular reposition and condyle growth modification by invisible orthodontic appliances.
